PROFESSIONAL SUMMARY

Technology and delivery executive with 10+ years of experience leading enterprise platforms, government digital initiatives, cloud programs, payments, SAP, and AI-enabled products. Combines technology strategy, solution architecture, portfolio governance, financial oversight, and cross-functional execution across web, mobile, data, integration, and infrastructure ecosystems. Known for translating business priorities into secure, scalable delivery programs and measurable outcomes.

CORE EXPERTISE

Executive Leadership: Technology strategy; portfolio governance; budgeting and cost control; executive reporting; crisis and continuity planning

Engineering and Architecture: Solution architecture; cloud and platform modernization; API and systems integration; DevOps; data and AI enablement

Business and Delivery: Product and program leadership; stakeholder alignment; vendor and government delivery; security and compliance; team mentoring

PROFESSIONAL EXPERIENCE

Technoark Solutions | Mumbai, India | Jan 2016 - Present

Chief Technology Officer / Senior Technical Delivery Leader

- Set technology direction and translated business goals into delivery priorities across enterprise, public-sector, commerce, healthcare, education, and financial platforms.
- Led end-to-end execution across product discovery, requirements, architecture alignment, budgeting, delivery governance, release readiness, and production support.
- Directed and mentored cross-functional teams while strengthening accountability through KPI reviews, executive reporting, and structured decision-making.
- Governed project budgets, cost analysis, financial risks, delivery dependencies, and contingency plans across parallel strategic initiatives.
- Led AI/ML adoption through LLM-enabled automation and predictive solutions, reducing manual workload by 30-40% across targeted processes.
- Oversaw multi-gateway payment integration using Razorpay and Stripe, increasing transaction success by 18% and reducing failures by 25% through retry controls.
- Led SAP implementation activities spanning configuration, customization, integration, training, documentation, and business adoption.
- Managed senior stakeholders across US-based clients, internal teams, and government entities while aligning delivery with security, regulatory, and procurement expectations.

TECHNOLOGY PORTFOLIO

Imagine Cup (Microsoft) - Global competition platform with portfolio scope supporting millions of registered users and page hits, 32+ user roles, and 15+ simultaneous competitions. *Technology context: .NET, SQL, AWS.*

Telemedicine Services - NHM, Madhya Pradesh - Statewide hub-and-spoke telemedicine initiative connecting 6 medical colleges with 1,206 Primary Health Centers for specialist consultations, digital health records, e-prescriptions, and centralized monitoring.

Technology context: React, Flutter, Java, MongoDB, on-premises infrastructure, kiosks, IoT kits.

Statewide HMIS - Madhya Pradesh Government - Hospital management platform spanning registration, billing, OPD/IPD, pharmacy, laboratory, radiology, assets, inventory, EHR, citizen services, mobile apps, and a Command and Control Center, aligned with ABDM interoperability standards. *Technology context: React, Java, MySQL, on-premises data center, command center.*

Disaster and Rescue Management - Uttarakhand Government - Smart response platform combining drone surveillance, thermal and LiDAR sensing, AI-driven analytics, GIS mapping, and command-center coordination for landslides and cloudbursts. *Technology context: React, Java, MySQL, AI/ML, GIS, LiDAR, drones, command center.*

Scallop / E Money Network - BankFi and PayFi ecosystem connecting a user-facing banking and digital-asset experience with a modular blockchain foundation for compliant financial services. *Technology context: React, Java Spring Boot, PostgreSQL, AWS, blockchain, DeFi.*

SKILLS AND TECHNOLOGY CONTEXT

Architecture: Enterprise architecture; web and mobile platforms; REST APIs; SSO; data integration; cloud and on-premises environments

Cloud and Delivery: AWS; Azure; Google Cloud; Docker; Kubernetes; Jenkins; CI/CD; observability; release governance

Platforms: Java and Spring Boot; Python and Django/FastAPI; Node.js; React; Angular; Flutter; SQL and NoSQL data platforms

Strategic Domains: AI/ML and LLM solutions; payments and FinTech; SAP/ERP/CRM; e-governance; healthcare; security and compliance

EDUCATION

Bachelor of Science in Information Technology (B.Sc. I.T.) | Jai Hind College, Mumbai University | 2016-2019 | CGPA: 9.57/10

INDUSTRY EXPERIENCE

Enterprise technology; government and e-governance; healthcare; education; FinTech and payments; e-commerce and logistics; SAP/ERP/CRM; AI-enabled products; SaaS platforms.
