PROFESSIONAL SUMMARY

Senior Technical Program Manager with 10+ years of experience governing multi-project technology portfolios across government, healthcare, education, enterprise systems, commerce, payments, and AI. Skilled in aligning strategy, budgets, risks, dependencies, stakeholders, and delivery teams across complex programs involving cloud, on-premises infrastructure, software platforms, hardware, and integrations. Provides clear executive reporting while maintaining delivery accountability at program and project level.

CORE EXPERTISE

Program Governance: Portfolio planning; strategic alignment; interdependency management; governance cadence; KPI and milestone oversight

Financial and Risk Control: Budgets; cost analysis; financial risk; RAID governance; contingency planning; compliance and procurement alignment

Stakeholder Leadership: Executive steering; cross-department coordination; government and client engagement; vendor alignment; team mentoring

PROFESSIONAL EXPERIENCE

Technoark Solutions | Mumbai, India | Jan 2016 - Present

Senior Technical Program Manager / Technology Portfolio Lead

- Governed end-to-end delivery across multiple projects and products, aligning scope, schedules, budgets, resources, dependencies, risks, and stakeholder commitments.
- Monitored strategic initiatives through KPI reviews, executive reporting, accountability mechanisms, and regular governance forums.
- Managed project budgets, cost analysis, and financial risk assessments to keep delivery aligned with organizational priorities and committed outcomes.
- Coordinated communication across departments, clients, vendors, and government entities while resolving escalations through structured contingency planning.
- Improved development milestone performance by 20% through clearer requirements, coordinated execution, and more disciplined delivery governance.
- Improved customer satisfaction by 15% and user engagement by 30% through stakeholder alignment, process improvements, and strategic technology initiatives.
- Led enterprise transformation activities covering SAP implementation, integrations, user training, documentation, and change support.
- Maintained long-term stakeholder relationships with US-based and internal clients while supporting proposals, regulatory alignment, risk mitigation, and delivery decisions.

PROGRAM PORTFOLIO

Telemedicine Services - NHM, Madhya Pradesh - Statewide hub-and-spoke telemedicine initiative connecting 6 medical colleges with 1,206 Primary Health Centers for specialist consultations, digital health records, e-prescriptions, and centralized monitoring.

Technology context: React, Flutter, Java, MongoDB, on-premises infrastructure, kiosks, IoT kits.

Statewide HMIS - Madhya Pradesh Government - Hospital management platform spanning registration, billing, OPD/IPD, pharmacy, laboratory, radiology, assets, inventory, EHR, citizen services, mobile apps, and a Command and Control Center, aligned with ABDM interoperability standards. *Technology context: React, Java, MySQL, on-premises data center, command center.*

Disaster and Rescue Management - Uttarakhand Government - Smart response platform combining drone surveillance, thermal and LiDAR sensing, AI-driven analytics, GIS mapping, and command-center coordination for landslides and cloudbursts. *Technology context: React, Java, MySQL, AI/ML, GIS, LiDAR, drones, command center.*

Digitization for Grassroot Governance - Connectivity and e-governance initiative for Gram Panchayats using VSAT, 4G, and broadband to extend access to public, agriculture, banking, insurance, and education services. *Technology context: React, Java, MySQL, VSAT, hub-and-spoke infrastructure, command center.*

BE-AgSmart eKrishi - Bharat Electronics Limited - Web and mobile digital-agriculture platform designed to automate FPO operations and combine IoT sensor data, weather intelligence, and GIS services for farm management. *Technology context: React, Java, Flutter, MongoDB, IoT and GIS integrations.*

SKILLS AND TECHNOLOGY CONTEXT

Governance: Program and portfolio planning; steering reviews; KPI dashboards; dependency management; risk and issue escalation; benefits tracking

Delivery Methods: Agile; Scrum; Waterfall; Kanban; hybrid programs; SAP Activate; government procurement and compliance coordination
