

GAURAV JAIN

SENIOR TECHNICAL PROJECT MANAGER

Mumbai, Maharashtra, India | +91 8097463214 | jigerjain4.gj@gmail.com
[linkedin.com/in/extretessestric](https://www.linkedin.com/in/extretessestric) | extretessestric.github.io

PROFESSIONAL SUMMARY

Senior Technical Project Manager with 10+ years of experience delivering enterprise software, web and mobile products, SAP programs, cloud integrations, and public-sector initiatives. Owns projects from requirements and planning through budget, schedule, risk, team coordination, client governance, release, and support. Experienced with Agile, Scrum, Waterfall, and hybrid delivery across distributed teams and Indian, US, and government stakeholders.

CORE EXPERTISE

Project Delivery: Scope and schedule planning; requirements; estimation; WBS; milestones; dependencies; release and support management

Governance: Budget and cost tracking; RAID management; change control; status reporting; KPI monitoring; compliance coordination

Leadership: Cross-functional team leadership; client communication; vendor coordination; Agile/Scrum/Waterfall; executive presentations

PROFESSIONAL EXPERIENCE

Technoark Solutions | Mumbai, India | Jan 2016 - Present

Senior Technical Project Manager / Technology Delivery Lead

- Managed end-to-end delivery of diverse enterprise and digital projects, coordinating requirements, schedules, budgets, risks, teams, releases, and support activities.
- Accelerated development milestones by 20% by improving requirements clarity, planning discipline, stakeholder decisions, and execution coordination.
- Improved customer satisfaction by 15% through structured client communication, process optimization, change-request governance, and responsive product support.
- Facilitated weekly status reviews, maintained risk and issue visibility, tracked KPIs, and drove owners to closure on actions and dependencies.
- Coordinated government projects and technical proposals, aligning delivery plans with procurement guidelines, regulatory expectations, and committed timelines.
- Led SAP configuration, customization, integration, training, and documentation activities while managing business and end-user adoption needs.
- Delivered payment-integration improvements that increased transaction success by 18% and reduced failures by 25% through intelligent retry logic.
- Collaborated with US-based and internal clients for more than a decade, supporting requirement discovery, stakeholder alignment, delivery communication, and issue resolution.

PROJECT DELIVERY PORTFOLIO

Telemedicine Services - NHM, Madhya Pradesh - Statewide hub-and-spoke telemedicine initiative connecting 6 medical colleges with 1,206 Primary Health Centers for specialist consultations, digital health records, e-prescriptions, and centralized monitoring.

Technology context: React, Flutter, Java, MongoDB, on-premises infrastructure, kiosks, IoT kits.

Maharashtra Common Entrance Test Cell - Government admissions ecosystem supporting entrance-exam processes across engineering, management, pharmacy, agriculture, law, medicine, AYUSH, and fine arts. *Technology context: React, Java, MySQL, on-premises data center.*

Swachh Bharat Mission - DDM, E-Loader and Tricycle Modules - Municipal waste-management digitization covering dustbin allocation, procurement and tracking of collection vehicles, and ward-level scheduling and accountability. *Technology context: React, Java, MySQL, on-premises data center.*

Digital MSME and Integrated Knowledge Center - NSIC - Enterprise digitization platform supporting multilingual access, GST-aligned workflows, and cloud-style ERP capabilities across sales, HR, finance, and CRM for small enterprises. *Technology context: React, Java, PostgreSQL, on-premises data center.*

BigShip - Multi-channel shipping and e-commerce operations platform serving social sellers, marketplace merchants, shop owners, and high-volume commerce businesses. *Technology context: Angular, .NET Core, PHP, Flutter, SQL, Redis, Kafka, Jenkins, Docker, Kubernetes.*
